# One new COVID-19 case, 3 more recoveries for Jamaica

**KINGSTON, Jamaica. Saturday, June 13, 2020: Jamaica has recorded one new case of COVID-19 in the last 24 hours. This brings the total number of confirmed cases for the island to 615.**

The last 24 hours have also yielded three additional recoveries, putting the recovery numbers at 420 and the recovery rate at 68.3%.

The new case, which is imported, is a 63-year-old male of a St. Catherine address. He entered the island via a cruise ship.

The number of imported cases is now up to 114. In addition, 219 cases are contacts of confirmed cases; 39 are local transmission cases not epidemiologically linked; 236 are related to a workplace cluster; and 7 are under investigation.

There are currently two (2) critically ill persons and a total of 185 or 30.1% active cases under observation. There are no moderately ill persons at this time.

Some 355 or 57.7% of the confirmed cases are females and 260 or 42.3% are males. They range in age from 2 months to 87 years.

Jamaica's testing numbers are now up to 16,147. In addition to the 615 positives, there are 15,487 negatives and 45 pending.

**Clinical Management Update as at 3:00 pm on Saturday, June 13, 2020.**
